# CHARGING LOCKERS

An efficient and effective way of storing your valuables with the additional option of also charging your iPhone's, iPads, laptop etc. An amazing design achievement that's popularly used by offices, retail environments and educational establishments. These products can be offered with or without charging capability (Charging version has an AC power socket with the option of two USB ports).

We currently supply these lockers to schools and businesses nationwide and attribute the popularity to the convenience and security that the product offers.

## IPAD / TABLET LOCKER

### Tablet Locker

**Height    Width    Depth**

1775mm x 300mm x 450mm  
10 compartment Solid Grade Laminate door.

### iPad Locker

1800mm x 340mm x 340mm

# LAPTOP LOCKER

## Additional Information

Charging and non-charging available for all types of locker.

Charging options 13 amp or 11 amp socket with two USB ports at extra cost.

All units are PAT tested before leaving the factory (with a certificate) to ensure they meet the European standards and legislations.

Lockers are supplied with a 2m long lead for wiring into a suitably rated fused spur.

## DIAMOND SWIVEL

Users own padlock

## CAM LOCK

Two keys per door

Our safe charge laptop lockers have two unique features. Firstly it is made from high gauge steel giving extra strength and security. Secondly each compartment can contain a charging element.

Together it not only keeps your laptop, mobile or any ac/dc adaptor safe but charges the batteries at the same time.

### Height Width Depth

1800mm x 450mm x 500mm  
Available in 5, 10 or 15 compartments

Or as a 1/2 height unit with five compartments 900mm high - as picture above.
